## Remote 60-Channel Cable Converter

TSP  
Available

**119<sup>95</sup>**

Low As \$15  
Per Month\*

- Direct-Access PLL Tuning System With LED Display
- Includes Multifunction Wireless Infrared Remote

Pushbutton remote scans cable channels in two directions, accesses them directly, fine-tunes and turns TV on/off. PLL tuning system assures optimum picture and sound. Has standard/HRC switch for use on all cable systems. LED digital display. Channel 3 or 4 output. 2<sup>3</sup>/<sub>4</sub> x 11<sup>1</sup>/<sub>2</sub> x 6<sup>1</sup>/<sub>2</sub>". FCC registered. UL listed AC. Remote requires 9V battery. 15-1285 ..... **119.95**

## Archer® Cable TV Block Converter

**29<sup>95</sup>**

Converts VHF,  
Mid/Superband  
Cable Channels  
To UHF

### Restores Remote Control Functions to Your TV

Watch one TV channel while taping another on your VCR. Also returns tuning to TV set and VCR. If you have a remote, you can use it to control all tuning selections—including cable channels. Fine-tuning control permits watching "offset" cable channels which may not be receivable on TVs or VCRs with digital tuners. 2 x 6<sup>1</sup>/<sub>2</sub> x 3<sup>1</sup>/<sub>2</sub>". UL listed AC. 15-1281 ..... **29.95**

## Dolby® Stereo Surround Sound Decoder With Built-In Amp

**Save \$29<sup>90</sup>**

Reg. Separate Items 229.85

**199<sup>95</sup>**

With Speakers

TSP Available

Low As \$15 Per Month\*

- Built-In 10-Watt Amplifier With Dolby Surround
- Two Minimus®-7 2-Way Speaker Systems

**Dolby Surround Decoder/Amplifier.** Enjoy room-expanding "3-D" sound just like theatrical films—at home. Decodes the Dolby surround channel encoded on hundreds of stereo video tapes and laser video discs. Audio becomes so lifelike, it makes ordinary stereo sound "flat." Just connect two speakers to the front channels, put a pair of speakers in the back of your room and connect the rear channel. Or, use your existing stereo system for

the front channels—a "BTL" switch on the decoder then lets you double the rear-channel output from 5 watts to 10. Inputs: tuner, audio tape and video/TV. Outputs: audio recording, front/rear L/R speakers, front L/R line level. 3 x 9<sup>3</sup>/<sub>4</sub> x 9<sup>3</sup>/<sub>4</sub>". UL listed AC. 15-1279 ..... **Amplifier Alone 129.95**  
**With Two Minimus-7 Silver Speakers.** See page 26 ..... **System 199.95**  
**With Four Minimus-7 Silver Speakers.** See page 26 ..... **System 269.95**

# INCREASE YOUR VIEWING ENJOYMENT

## Video Distribution System Delivers All Your Video Sources to Every TV

- Watch a VCR on TV Sets Throughout Your Home Without Moving It From Room to Room, or Watch Cable or Satellite TV in Every Room
- Choose the Video Source You Want to Watch With the TV's Channel Selector or by Remote

Watch what you want—where you want! The Archer Multiple Video Distribution System sends programs from your cable box, VCR and satellite system or antenna through a single coaxial cable to every TV set in your home—you choose the program source at the set. Each of the three outputs is amplified for best reception, and you can add splitters to connect more TV sets as desired. Works with all standard television receivers. Quick and easy hookup with coax cable, or use existing coax in prewired homes. (TSP available) 15-1290

**54<sup>95</sup>**

## 40-Channel Cable TV Block Converter

Converts VHF, mid and superband cable-TV channels to UHF-TV band for selection with TV/VCR channel selector or remote. You can watch one channel and tape another with your VCR. And, if you have a remote-control VCR or TV set, adding this converter restores remote-control tuning plus manual fine-tuning for "offset" cable channels. 75-ohm connectors. 2 x 6 x 3 1/2" 15-1281

**29<sup>95</sup>**

## Infrared Remote Control Extender

Lets you operate remote-control video and audio equipment from another room in your home by sending commands back to the source through existing coax cable. For example, your cable box, satellite receiver or VCR is connected to a second TV in the bedroom. With the Extender, you can change channels or control the VCR without leaving the bedroom! (TSP available) 15-1289

**49<sup>95</sup>**

## Signal Boosters

### Picture

(1) Video Amplifier/Enhancer. Boosts base-band video signal from VCR, satellite receiver or other video output. 15-1102

(2) 3-Set Audio-Video Distribution Amplifier. Amplifies and splits audio signals. Comes up to three audio/video components. 15-1103

## 70-Channel Cable Converter With IR Remote

Works with all cable systems. Scans, tunes directly, fine-tunes and flashes back to previous channel. Multifunction remote also turns TV and converter on/off and sets timer for auto shutoff up to 90 minutes later. Ch. 3 or 4 output. 2 1/2 x 11 1/2 x 6 1/2" With patch cable, splitter. Remote requires 9V battery. (TSP available) 15-1287

### Battery Recharger Charges Alkaline and Ni-Cd Batteries ▶

Extend the life of your batteries up to 10 times and help preserve our environment at the same time! As seen on TV, this revolutionary battery charger safely and effectively recharges all brands of alkaline and Ni-Cd batteries—1.5v, AAA, AA, C- and D-size\*. That means you'll save on high battery costs every time you charge them. In fact, considering how many everyday items require batteries, this remarkable unit could save a family \$100s each year. It's great for making sure you always have power to run kid's toys, portable stereos, flashlights, remotes and hundreds of other devices. Four recharging stations let you recharge from one to four batteries at the same time. When charging is complete, it shuts off automatically and signals you with a lighted indicator. \*Won't work with 9v batteries, leaking batteries or batteries that are completely dead. Item No. B-64111-383633 S/H \$6.50 \$3.25
